Famine Relief Works.

Q.—120. **Sri M. LINGANNA** (Nanjangud).—

Will the Government be pleased to state :—

(*a*) the number of districts in the State which have been subject to famine ;

(*b*) the number of taluks in such districts which have been most affected ;

(*c*) the steps they have taken by way of relief ?

A.—**Sri Kadidal MANJAPPA** (Minister for Revenue and Public Works).—

(*a*) No district in the State has been declared as a famine stricken area under the Famine Code. However, certain areas of several districts have been considered as affected on account of adverse seasonal conditions.

(*b*) 1. Kolar ... All taluks.
2. Tumkur ... Koratagere, Sira, Gubbi, Pavagada, Madhugiri and Tumkur taluks.

(SRI KADIDAL MANJAPPA).

3. Chitaldrug... Molakalmuru, Hiriyur, Chitaldrug, Hosadurga, Challakere and Jagalur taluks.
4. Mandya ... Nagamangala, Krishnarajapet and Pandavapura taluks, to some extent.
5. Bangalore ... Sasalu Hobli of Dodballapur taluk and Kodihalli Hobli of Kankanhalli taluk.

(c) Due to the adverse seasonal conditions, the need to provide employment to the persons of the affected areas was felt as early as in September 1951 and relief works have been started in the Districts of Kolar, Tumkur, Chitaldrug, parts of Bangalore and Mandya, as the effect of adverse conditions was felt in these areas to a great degree. A large number of works, to afford employment to as many people in the affected areas as possible, have been started. The details of the number of works and outlay incurred are noted below :—

Figures for 1951–52 (to end of March 1952).

District	*No. of works in progress*	*Outlay incurred* Rs. a. p.
Kolar	247	75,980 3 1
Chitaldrug	15	15,374 0 0
Tumkur	6	3,165 4 0

Figures for 1952–53 (from 1st April to 31st May 1952).

		Rs. a. p.
Kolar	638	2,98.529 15 0
Chitaldrug	28	31,107 15 0
Tumkur	51	52,875 4 0

The daily average expenditure on relief works in Kolar District is in the neighbourhood of Rs. 0,000. The amount spent up to 31st May 1952 is Rs. 2,98,529–15–0.

Wages fixed in the first instance to the labourers employed on relief works have since been enhanced to 12 annas per male cooly, and 10 annas for a female and a boy above twelve years of age. The rate of payment for earthwork has also been stepped up from 10 annas per 1½ cubic yards to 12 annas for one cubic yard per adult.

An allotment of Rupees six lakhs has been distributed, from 1st April 1952, among the several districts for relief works and expenditure connected with fodder as noted below:—

	Relief works. Rs.	*Fodder.* Rs.
Kolar	2,95,000	19,500
Tumkur	55,000	16,000
Chitaldrug	40,000	11,500
Mandya	10,000	88,0 0
Mysore	25,000	7,000
Bangalore	20,000	...
Total	4,45,000	1,37,000

As the allotment provided to Kolar District under Land Improvement, etc., loans during 1952-53 was found to be insufficient, and additional allotment of Rupees five lakhs has been sanctioned exclusively to Kolar District, for meeting the demand under Land Improvement and Takavi loans and well subsidy.

Scarcity for drinking water was felt to some extent in the Districts of Kolar, Tumkur and Chitaldrug. Action has been taken to sink temporary wells in tank beds, and to deepen existing wells.

Fodder.—Arrangements have been made to supply fodder from Mandya and Mysore Districts to Kolar, Tumkur and Chitaldrug Districts, where scarcity for fodder was felt. Movement of fodder was slow in the beginning due to want of demand and the non-availability of wagon accommodation, but as demand increased, arrangements were made to run 2 block-specials a day to Kolar District, and 1 block-special every week to Tumkur District, in addition to the normal supply wagons. The quantity supplied to these three Districts up to 30th May 1952 is 808 tons from

Mandya and 70 tons from Mysore-in all about 900 tons. The reduction of the price from 6 pies per pound to 4 pies per pound has also stepped up the demand.

Fodder is now being supplied from Mandya daily. As scarcity for fodder has not diminished yet, arrangements have been made to supply about 700 tons of hay from Mandya District during the month of June 1952.

Fodder which was sold at a subsidised rate of 6 pies per pound has been ordered to be sold at a further reduced rate of 4 pies per pound, as the villagers were found not in a position to purchase it even at the subsidised rate of 6 pies per pound.

In addition to the above relief arrangements have been made to dispense charity in the shape of cash and ration doles to indigent and helpless people in the affected areas out of allotments made from the Assam Earthquake Relief Funds.

A generous gift of 100 pieces of old cloths made by the Bengalee residents of Bangalore under the leadership of Mrs. Gupta (wife of Mr. Gupta, Accountant-General in Mysore) has been distributed among indigent people in Kolar.

In addition, local committees have been formed at District and Taluk levels to collect or buy cloths and to distribute them to the needy.

Milk powder and multi-vitamin tablets have been also distributed in some areas through the local committees and the Indian Red Cross.

Remissions.—Pending formal sanction of proposals of remission cases by Government, collection of assessment both dry and wet in the affected areas has been suspended.

Every effort is being made to afford relief to the persons of the affected areas.

Sri Kadidal MANJAPPA.—If there is need.

Sri M. LINGANNA.—May I know to what extent the amount may be enhanced ?

ಶ್ರೀ ಬಿ. ರಾಚಯ್ಯನವರು.—ಇದು ಜನರಿಗೆ ನೇರವಾಗಿ ತಲಪುತ್ತಿಲ್ಲವೆಂಬುದು ಗೊತ್ತಿದೆಯೆ ?

ಶ್ರೀ ಕಡಿದಾಳ್ ಮಂಜಪ್ಪನವರು.—ತಲಪುತ್ತಿದೆ.

ಶ್ರೀ ಟಿ. ಎಚ್. ಮೂಡ್ಲಗಿರಿಗೌಡರು(ಕುಣಿಗಲು).—ತುಮಕೂರು ಜಿಲ್ಲೆಗೆ ಒದಗಿಸಿರುವ ಹಣ ಸಾಲದಲ್ಲವೆ ?

ಶ್ರೀ ಟಿ. ಎಚ್. ಮೂಡ್ಲಗಿರಿಗೌಡರು. ಆದರೂ ಕೂಡ ನೀರಿನ ಬಾವಿಗಳಿಗೆ ಹೂಳನ್ನೂ ದಾನಸದೇ ಇರುವುದು ನಿಮ್ಮ ಅಂಕಿ ಅಂಶಗಳಿಂದ ಕಾಣುತ್ತಿರಲು ಕಾರಣವೇನು ?

ಶ್ರೀ ಕಡಿದಾಳ್ ಮಂಜಪ್ಪನವರು.—ಒದಗಿಸಿದ್ದೇವೆ.

ಶ್ರೀ ಟಿ. ಎಚ್. ಮೂಡ್ಲಗಿರಿಗೌಡರು.—ಕೋಲಾರ ಜಿಲ್ಲೆಗೆ ಮಾತ್ರ ಒದಗಿಸಿದ್ದೀರಿ, ತುಮಕೂರು ಜಿಲ್ಲೆಗೆ ಒದಗಿಸದೇ ಇರುವುದು ಗೊತ್ತಿದೆಯೆ ?

Sri A. BHEEMAPPA NAIK.—Does the Hon'ble Minister mean to say that the rainfall during the seasons mentioned and the rainfall now in these areas are similar in these days ?

Sri Kadidal MANJAPPA.—It does dot entirely depend upon rainfall.
